ALL CMI SAFES COME WITH A FIVE YEAR WARRANTY, EXCLUDING FREIGHT & TRAVELLING, WITH A 12 MONTH WARRANTY ON LOCKS.

CMI CHALLENGE RANGE
 Heavy Duty Safes of Australian design and manufacture utilising the latest techniques and materials in security technology. The "Challenge" is a strong, robust and handsome safe ensuring the protection of your valuables and office records.

The CMI Safe Co. has been designing, manufacturing and servicing safes throughout Australia for over 50 years. CMI Safes are used by all State and Federal Governments and some of Australia's leading National Companies.

BODY: Total thickness 80 mm. The safe body features heavy-aggregate concrete fill between inner and outer walls of specially reinforced steel.

DOOR: Total thickness 100mm. The "Challenge" door provides a heavy steel front section supported by internal drill-resistant self-hardening plate, giving 30 mm of laminated metals over all locking mechanisms. The lock case forms an integral part of the entire door structure, giving additional strength.

INSURANCE COVER: Insurance surveyors have suggested \$25,000 as a realistic rating for overnight holding of valuables by the Challenge Safe in an unsupported situation.

MODEL CH3

BOLT DOWN FACILITY: Two recessed Bolt-Down holes are provided in the base of the Safe to allow secure anchoring to any type of floor.

LOCKING: 1 million change, 3 wheel S&G combination lock and one 6 lever pick resistant key lock

BOLTWORK: Heavy 32 mm (1 1/4") dia. bolts of high grade steel provide 2 way locking into the specially strengthened lock chamber sections at front and rear edges of the door.

FINISH: Satin finish handle, lock and fascia panel complement the high quality paint finish, a characteristic of all CMI Safes.

INTERNAL FITTINGS: 2 lockable drawers and 2 adjustable shelves are supplied with each "Challenge" Safe.

FIRE RESISTANCE

The Challenge Safe has been designed to give one hour fire protection.

Model	Code	Height	Width	Depth	Weight Kg	Litres	Locking Points	Price
